

TO: MISSISSIPPI AGENTS

COMMERCIAL AUTO REVISED LOSS COSTS

You should have received manual pages from the Insurance Services Office that provide revised loss costs for Commercial Auto. These rates apply to policies written on or after November 1, 2009, instead of ISO's effective date of July 1, 2009. This change will produce an overall rate change of +0.40%.

We have revised our Company Liability Loss Cost Multiplier to 1.488. Our Physical Damage Multiplier remains unchanged at 1.820. Revised page CA-R-O can be found under our Company Procedure Manual on our web site at [www.graindealers.com](http://www.graindealers.com).
