

TO: MISSISSIPPI AGENTS

**GENERAL LIABILITY LOSS COSTS AND
COMPANY MULTIPLIER TO BE IMPLEMENTED**

You should have received manual pages from ISO containing new loss costs for General Liability. Grain Dealers Mutual Insurance Company will apply these loss costs to policies written on or after May 1, 2004, instead of ISO's effective date of February 1, 2004.

In order to convert these loss costs to rates, they must be multiplied by the Company's Loss Cost Multiplier. Enclosed is manual page GL-R-O that provides you with the new multiplier. Company manual page GL-MP-1 remains unchanged.
