Web Site Enhancement Improves Your Access to Loss History

A new feature has been added to the Grain Dealers web site that will improve your ability to access and generate loss runs.

Previously, you could only access loss information by insured name and only if there had been some loss activity recorded. Now, a new selection has been added under the Agents Experience tab called, "Loss Run By Policy Number." When you select this option, a complete listing of your agency's accounts will be displayed by policy number. By using the search function or selecting a specific policy number, the claims history will be displayed. If there has been no claim activity, there will be an appropriate indication that you can print.

If you have any questions, please contact a company representative or call the Agency Supervision Department in the Home Office at 800-428-7081. As always, we value your input, so please let us know if you have any suggestions or concerns.
